

A man with a grey beard and glasses, wearing a yellow sweater and large headphones, is celebrating with his arms raised in a call center. He is sitting at a desk with a computer monitor. In the background, other employees are working at their desks in a modern office setting with brick walls.

Helping the Meadows

communicate and collaborate better

All tech companies are the same. Aren't they?

We don't think so.

At Windsor Telecom, we're not here to talk you into the most complicated tech solution, we're here to help you find the simplest.

You want technology that's easy and enjoyable for everyone to use, that's straightforward and intuitive from the outset so it can immediately make an impact on your business and your employees' working lives. So that's what we deliver.

Passionate people

We love what we do,
especially when it makes our
customers smile.

Straightforward solutions

We're passionate about
making technology easy
and enjoyable.

Exceptional experience

We're here to work with
you, all the way through
our journey together.

Communicate

Cloud telephony

Manage calls anywhere on any device with our scalable VoIP solution. Featuring an intuitive portal, mobile apps and loads of call management tech as standard.

Contact centres

Extend your PBX into a call centre environment with wallboards, dashboards, management portals and agent availability reporting.

Call management

Customise your call plans and routing to suit your business's productivity and customer experience.

Microsoft Teams calling

Collaborate and communicate from one place by integrating Teams into your phone system for an easier way to make and receive calls.

Communicate

Business broadband

Our fibre broadband solutions provide fast and reliable business connectivity at a cost-effective price with 24/7/365 support and no compromise on quality.

Leased lines

Our dedicated ethernet services give fast guaranteed speeds, unlimited usage and dedicated support, perfect for growing businesses and bandwidth-hungry applications.

Wi-Fi networks

Set up a robust wireless network with wireless access points and mesh technology to ensure every corner of your business and its devices are connected with a reliable connection.

SD-WAN

Build a high-performance network for your business in a simple and efficient way, giving greater flexibility, control and visibility for multi-site organisations.

Collaborate

Microsoft 365 and Teams

Work from anywhere on any device, seamlessly in the cloud with this suite of productivity and collaboration tools and apps.

IT support and security

Gain peace of mind knowing your IT is well managed with our remote desktop support, security and networking solutions, giving cost-effective access to industry specialists.

Networking

Design and install a high performing, cost-effective network that's expertly monitored and maintained. We can advise on WiFi, wired or wireless LANs to suit your business.

windsor telecom®

We'd love the opportunity to show
you how **we're different.**
